FTDI 'Conflict Minerals' Statement

FTDI has a high level of concern for the issue of 'Conflict Minerals', which involves the trade of minerals and associated metals - Gold(Au), Tantalum(Ta), Cobalt(Co), Tungsten(W) and Tin(Sn) originating in the region of the Democratic Republic of the Congo (DRC) and surrounding regions where armed conflict results in human rights violations and environmental damage.

FTDI have contacted all their supplies with respect to this issue and their suppliers have confirmed that they do not, and will not, knowingly purchase any material from the conflict region.

At this time FTDI is not aware of the use of any 'Conflict Minerals' in FTDI products.

On behalf of Future Technology Devices International Ltd,

A handwritten signature in black ink that reads 'Fred Dart'.

Fred Dart, Managing Director
