

FTDI Document No.: FT_001418

17th January, 2018

FTDI Warranty Declaration Letter

FTDI has a high level of concern for the Mitsubishi Material Corporation (hereinafter referred to as "Company") incident of its subsidiaries including Mitsubishi Cable Industries & Mitsubishi Shindoh; falsifying material specifications that affected metal and rubber sealing materials/products. Although verification and inspections carried out to date, conducted by the company, has not revealed specific problems casting doubts on the safety of the affected products; FTDI has conducted its own verification to ensure there is no implication to any of its full range of products.

FTDI has contacted all suppliers with respect to this issue and all our suppliers have indicated that there they do not use and there is no known intention to procure materials and/or products from the aforesaid company. Henceforth, FTDI hereby confirm that there is no known implication on its products pertaining to the event from Mitsubishi Material Corporation and its affected subsidiaries.
